## Did You Know?

We are excited to launch a new series titled "Did You Know?" in which we will bring you tidbits of information surrounding the prolife culture to help you stay informed and on top of the latest information concerning the work we do.

Every two weeks you'll receive a short e-blast from the series!

## 63% of all abortions in the US are via the chemical abortion pill process...

According to new information from the [Guttmacher Institute](#), there were approximately 642,700 abortions from the chemical abortion pill in the U.S. in 2023, accounting for **63% of all abortions**, which is an increase from 53% in 2020.

This dangerous pill regimen has been approved by the "FDA" up to [10 weeks of pregnancy](#) - when the **heart has already been beating for weeks** and **unique fingerprints are formed**.

And in North Carolina, the chemical abortion pill data shows an [11% increase](#) in 2022 from 2021. North Carolina law requires a woman to receive an ultrasound

before any form of abortion, but many women and men are accessing the pill **illegally through the mail**.

Sadly, the state and national numbers of both the usage and complications of the pill are **underreported**, as it is unregulated. Many women are left to experience horrors and excruciating pain from such **self-induced abortions**.

### What can you do?

*Pray.*

*Educate everyone you meet.*

*Get involved to change the trajectory of our culture.*

*Pray more.*

---

## Reminder: One day left to vote for LIFE!

We are in the final round of the voting process with **Best of the Pines** for **TWO categories!** Please take a moment to vote for Life Care for the "Best Place to Give Your Time or Money - Children" AND/OR "Best Place to Give Your Time or Money - Community" in the "Arts & Community" group.

Voting ends tomorrow!
